

Addressing Issues of Loss of Loved Ones

Grief is the emotion expressed in times of loss. Everyone experiences loss at some time in life. In the past several decades, our society has been able to talk about death more openly. As Christians we have always acknowledged the death and resurrection of our Lord Jesus Christ as a foundation of our faith. Funerals and memorial services are a time that we remember Christ's death and resurrection as well as our baptism. As the church, we have abundant resources to offer those who are grieving.

If you are experiencing grief due to the loss of a loved one, call the church office and schedule some time to explore our resources. (630) 325-2220
